

SONS OF IRELAND
SCORED 1-0 WIN
OVER MCGILL SIXClimbed To Top Of Senior Q.A.H.A. Loop
Following Close Victory

POOR DISPLAY

Defensive Methods Adopted
by Irish Team Resulted in
Scraggy Hockey

Sons of Ireland, Quebec City representatives in the senior Q.A.H.A. group, climbed to the top of the league by handing out a 1 to 0 defeat to McGill at the Forum last night. A lone tally from the stick of Morrisette six minutes after the opening gong gave the Irish their advantage and this margin they maintained steadily until the end of the game. Their efforts in this connection were both weird and awkward in the extreme and served to make the game as dull as a affair to watch as the shivering fans could possibly bear.

Against the street hockey tactics adopted by the Sons, McGill could never get going rightly and this, coupled with a determined defensive that the Irish assumed spelled defeat for the red team's efforts to tie the count. Sons' scraggy methods cost them penalties aplenty but playing a man short they always managed to kill time until the offender appeared on the ice again. For this breach of etiquette they got a continual razzing from the crowd who took turns in booing Sons and the referee. The whistle carrier in last night's fracas was Ernie Davins, of the Royal Bank team, and in justice to him it must be said that he had an unusually hard game to handle. His greatest weakness seemed to be that for the most part he was at a loss what to do in the enforcing of penalties for the many breaches of the rules. He was very liberal, however, with his penalties and Sons gathered in the most of them.

Sons gave a fine demonstration last night of the ancient art of killing time with a one goal margin on the credit side when a team is out to win. They simply would not play hockey. Scragging the puck behind their own nets was the most popular method adopted but the versatile Loneragan showed conclusively that as a procrastinator, he has few equals. His best performance along this line were his attempts to grab loose pucks when he was prostrate on the ice, but his really brilliant coup was kicking the puck in rugby fashion to have the referee blow the whistle and lose more time.

Sons' reluctance to forego their defensive game nearly cost them their victory several times. McGill was always on the attack and though they faced a six man defense broke through several times for dangerous sallies. Three times St. Germain had Turgeon at his mercy and twice the Quebec netminder was equal to the occasion. On the other effort, the McGill captain drew Turgeon over and drilled one at him, but the puck just grazed the post to rebound against the boards at the rear of the net.

Only once did the McGill defense weaken perceptibly but this once was enough to give Sons the game. Morrisette, the big Irish defenseman, managed to skate around Adams and boring in on Bazin had him at his mercy. The puck just grazed the McGill goalie's shoulder and lodged in the net. It was enough to turn the tide and safely salt the game away. From then on, Sons took no chances and stoutly defended their lead to the end.

Two McGill men came out of the game with injuries. In the third period Paul Smith fell heavily after a body check and later examination showed that there is a possibility that he has a broken rib. In the same frame, Rog. McMahon skated from the ice bleeding from a deep cut in the chin. It is unlikely, however, that it is serious enough to keep him out of Thursday's struggle with U. of M.

The line-up:
Sons McGill
Turgeon Bazin
Morrisette Adams
Gagne McMahon
Loneragan St. Germain
Laroche McKies
Dinan Bell
Subs
Marion P. Smith
Chevalier D. Smith
Referee: Davins.

First Period
Sons Morrisette 6-22
No score.
Second Period
Sons Morrisette 6-22
No score.
Third Period
Sons Morrisette 6-22
No score.

Player's Club
Dates Are Once
Again Changed

The executive of the Player's Club wish to announce that the dates set for the production of Galsworthy's *Loyalties* have been changed. The play will be presented on Saturday, March 5th and Monday, March 7th, which will cancel the performance advertised to take place on the third. Rehearsals are taking place daily and the cast is working assiduously in preparation for the presentation of this modern classic.

Tickets for these performances will be on sale on Wednesday. Students exchange tickets 85c and the tickets for the public will be \$1.00.

Tickets will be on sale at Chapman's Book Store and at Burton's Book Store.

NATURAL SCIENCE
MEETS WEDNESDAYDr. A. S. Eve Will be the
Speaker

PHASES OF PHYSICS

Dr. A. V. Douglas Greatly
Helped The Club in
Starting

The Natural Science Club, which was only inaugurated last fall, has occupied a worthy place amongst the various R.V.C. societies. The aim of this society is, to present in a popular and non-technical manner, the broader aspects of pure science. There are many McGill women students who are interested in such fascinating subjects as astronomy, solution etc., and yet other studies, of more personal import, perhaps, occupy their attention while at college, and it is thought that this club appeals to such a group.

Organizers of new societies frequently allow enthusiasm to outstrip wisdom, and the executive have especially guarded against such possible error this year. Many difficulties have been encountered, not the least of which is the necessity of holding meetings Wednesday afternoons, instead of the customary Thursday. So far only two meetings have been held, the first one in Nov. dealing fittingly with Astronomy—the earliest of all sciences. On this occasion Dr. A. V. Douglas M.B.E., was the speaker, and in a most lucid and delightful manner the audience were introduced to "some secrets of stardust." Surely the vast universal formed itself into a greater revelation for those whose imaginations explored these starry realms. Miss Carrie Derrick M.A. addressed the December meeting, when Evolution was discussed in the speaker's own inimitable style. Both lectures were illustrated with lantern slides.

The Club has been extremely fortunate for the meeting to be held Wednesday afternoon, February 23rd, in securing Dr. A. S. Eve. This distinguished scientist will deal with various interesting phases of physics and many fascinating experiments are promised. Tea, as usual, will be served, at the close of the address, enabling those who wish to attend Stunt Night, to remain at college. Dr. Eve is, without doubt, one of the most illustrious professors at McGill and although his official position is Director of the Department of Physics, he is also a worthy philosopher and literary scholar. The executives are particularly anxious that all women students will avail themselves of this opportunity to hear, and become acquainted with (Continued on page four)

WINNIFRED KIDD SPEAKS

Public Opinion Subject at Socio-
logical Society

Miss Winnifred Kidd will be the principal speaker at the meeting of the Sociological Society which will be held this evening at 8.15 in the Arts Building.

Miss Kidd, who is a graduate student engaged in postgraduate work in the department of Sociology, will speak on the subject, "Public Opinion", in which field she has done considerable research work.

Dr. Dawson and Professor Poole will also be present at the meeting and will contribute to the discussion which invariably takes place at the close of the address.

The executive desires it to be emphasized the fact that the Society is open to both men and women students in Sociology. Refreshments will be served at the close of the meeting.

EVERY HOUR OF
WAR COSTS MORE
THAN EDUCATION"What Do Wars Bring?" Discussed At
S.C.A. Forum

DR. GIFFORD

Third of Series of Lectures
Being Given in Strathcona
Hall

"Each hour of the late war cost more than what Montreal spends a year on education" said Dr. Gifford in his Forum on War yesterday evening. This was the third of the series of forum that are being given under the auspices of the S. C. A. in Strathcona Hall on Monday at five. The meeting was well attended and figured as the second meeting in the International Student Week.

The main theme of the discussion was "What do wars bring?" The speaker began by saying that there was no need to elaborate on the ghastly side of war with its millions of dead and wounded. The next point was that war brought moral and spiritual impoverishment to the race. Most of the worst characters came out of the war worse than when they went in. In the army the soldier was under a different moral code. Every offence that was opposed before the war was aggravated. Moral codes have been suspended and are tending to be abrogated. International suspicion and hatred was augmented due to the principle of expediency. Violence among men became a common thing, and no doubt the machine gunners of Chicago and the rum runners were the direct outcome of the streak of violence that was roused during the war. The end of wars bring unjust treaties to which no nation can really honestly agree but as promises had been made to secure the friendship of neutrals they have to be carried out to the extreme. The Treaty of Versailles was quoted as a typical example of this.

War brings economic disaster. One nation depends on another for its food and livelihood and if that means goes then more than one nation will suffer. Edison says that a fleet of airships over London could annihilate that city in three hours. This would mean the gravest disaster not to the conquered but the conqueror. The laws of war are not being held any more and so it may never be known to what extent science or engineering (Continued on page four)

ORIENTAL STUDENTS
ENTERTAIN TODAYChinese and Japanese Take
Part in Program

Two days of the International Student Week have passed at McGill with perhaps little notice being made of them, but today there will be something outstanding when the Oriental Students, who are registered at McGill, will give an hour's entertainment in Strathcona Hall. Both Chinese and Japanese will take part in the program which will include an Oriental dance and a Japanese game. This most interesting program is scheduled to begin at five.

The object of the series of these afternoon hours spent in this way is to try to enable students to understand more of the countries which to most people are called foreign. With the present difficulty facing the West and the East the views of the Chinese and Japanese people who deem it worthy to be educated in a Western atmosphere, will be great help in a mutual understanding.

The meeting will be under the chairmanship of W. H. Fong. Two short addresses will be given, one on "China's Civilization" and the other on the "New Japan." The first one is to be given by Shuming T. Liu while Richard Makiyama will speak on Japan. Following these are to be the dance and the game. The dance is called the "Dance of the East and West" and it will be performed by Richard Makiyama while the accompanist will be Miss Florence Liang, of the R.V.C. The last item on the program is the Japanese game called Hane and will be played by S. Harano and R. Makiyama. Harano is a theological student at the U.T.C. while Makiyama is in the first year of Arts.

R.V.C. Stunt Night
To Take Place In
Strathcona Hall

The annual R.V.C. 'Stunt Night' takes place tomorrow night in Strathcona Hall at 8 o'clock. The purpose of this presentation, besides furnishing an evening's amusement for the performers as well as the spectators, is to provide funds for the International Student Service.

'Stunt Night' consists of a series of stunts, stunts and musical numbers. Directed and presented entirely by McGill women students. Miss Dorothy Roberts, Arts '27 will be chairman.

Tickets may still be obtained for 25 cents from any representative on the Campus, or admission be paid at the door. Generous packages of home-made candy will be sold during the intermissions.

WHY BOYS BEHAVE
LIKE HUMAN BEINGSDr. Atkinson to Address
Meeting This Afternoon

BIOLOGICAL BUILDING

To Deliver a Series of Lec-
tures Under Auspices of
Social Workers

Mr. R. K. Atkinson, Education Secretary of the Boys' Club Federation and international organization with headquarters in New York will address McGill students this afternoon at 5.15 in the lecture theatre of the Biological Building on "The Boy and His Social Group." This meeting is also open to the public. Mr. Atkinson is being brought to Montreal by the McGill School for Social Workers to give a series of lectures in the university and the community Tuesday Rotary Club, "Why Boys Behave Like Human Beings"; Wednesday Social Workers Club "Leisure and Lawlessness"; Canadian Girls in Training Leaders "Recreation and Character"; Thursday Kiwanis Club "The Discovery of the Boy." He will also address the students of the McGill School of Physical Education on "Physical Education in Relation to Mental Deviation."

Mr. Atkinson was for many years head of the Recreation in Institutions of the Russell Sage Foundation. He made a study in nine states of custodial and correctional institutions with the purpose of evaluating the use made in them of play and recreation and finding out how far it was contributing toward the development of the children. He wrote a monograph on the subject of "Play for Children in Institutions" and he has been a well-known speaker and writer on similar topics. In his present position in the Boys' Club Federation he is working in the field of recreation and boy behaviour. Mr. Atkinson has collected some interesting material on athletic research and motor efficiency tests which has also been published.

LECTURE ON HANDICRAFTS

Rev. F. Kovacs Will Speak on
Hungarian Handicrafts

The second illustrated lecture of Extension Committee of McGill University and the Canadian Handicrafts Guild is to be held on Wednesday February the twenty-third in the R.V.C. at 8.15. The speaker will be the Rev. Frank Kovacs by the courtesy of the Royal Hungarian Consulate General. The chief topic of the speaker will be Hungarian Handicrafts.

The purpose of these lectures is to show the public what kind of handicraft work the foreign countries do. These are the foreign countries from which Canada draws her immigrants. The lectures are open to the public.

TELEGRAPHIC CONTESTS

Oberlin, Ohio.—Intercollegiate telegraphic contests are being held by several eastern college rifle teams. Shooting on their home ranges, the teams communicate the results by telegraph. Among the colleges which have met in such contests are Williams, Penn. State, Dartmouth, Gettysburg and the University of Maine.

J. E. Martin, superintendent of the fish culture service of Alberta, announces that nearly 800,000 brown trout eggs have safely arrived from Wisconsin at the Banff hatchery, and that the trout, which are closely related to the Loch Leven trout, will be distributed throughout the tributaries of the Red Deer River, Alberta.

MANY C.O.T.C.
CADETS PASS
IN PRACTICALTwelve Cavalry Cadets Qualify For War
Office Exams

GOOD RESULTS

Rumored That University
Band to Play at Inspec-
tion

Twelve Infantry, five Medical and twelve Cavalry cadets of the McGill C.O.T.C. were successful on the practical portion of their examinations for "A" certificates which were held last week-end. Word to this effect was received by Maj. Jenkins from headquarters of Military District No. 4 yesterday. As yet the names have not been made public.

Of the troop of cavalry that journeyed to St. Johns Sunday all but two of the cadets were successful. Besides these Lieut. H. W. Howell and Lt. Cpl. G. Tait qualified on the practical portion for captain's qualification. The party were examined by Maj. Timmins and another officer from the Royal Canadian Dragoons. Tests were much more severe than last year's examination and he seemed well satisfied with the type of cadet produced by the McGill cavalry this year. For three hours the cadets were put through mounted troop drill and each one in turn took charge and drilled their fellows like veterans.

While the cavalry were at St. Johns the infantry and medicals held their tests in tactics at M.D. headquarters on Bishop St. These examinations were conducted by Col. Perry D.S.O., assisted by Lt. Col. Chasse D.S.O., M.C., and the Medicals by Maj. Grossline D.S.O.

The general inspection will be held on March 18th, at the armories of the Royal Highlanders of Canada, as announced by Maj. Jenkins yesterday. The inspection and march past will be taken by the District Officer Commanding, M.D. No. 4, Eric, Gen. W. B. M. King C.M.G., D.S.O. Contrary to current rumors all arms of the corps will parade on this occasion as an infantry battalion. All ranks of the cavalry had fond hopes of parading in full cavalry uniform and carrying swords but their hopes were shattered when Maj. Jenkins received definite word from headquarters yesterday.

It is rumored that the McGill University Band will play at the inspection. (Continued on page four.)

BRYN MAWR OFFERS
MANY OPPORTUNITIESMany Fellowships and
Scholarships Announced

The announcement of the Fellowships and Scholarships of Bryn Mawr College, Bryn Mawr, Pennsylvania for 1927-28 has been received.

Candidates for Fellowships must have completed a year of graduate work at some college or university of good standing. Holders of Fellowships are not permitted to teach or to hold paid positions. Following is a list of the latter:

Helene Cecil Rubel Foundation Fellowship for \$1,200 in physics or chemistry. Candidates for this must have done advanced graduate work.

Helene Cecil Rubel Foundation Fellowship for \$1,500 in any subject, with the requirement that the candidate must have studied in the graduate school of Bryn Mawr College.

Anna Ottendorfer Memorial Research Fellowship for study in a German University for \$1,200 in German and Tentative Philosophy. Candidates for this must also have studied in Bryn Mawr's graduate school.

Seventeen Resident Fellowships for \$810, each, in Greek, Latin, English, Romance Languages, German, Biblical Literature, History, Philosophy, Psychology, Education, Archaeology, History of Art, Mathematics, Physics, Chemistry, Geology, Biology.

Justice C. Strawbridge Fellowship for \$810 in Economics and Politics.

Two Carolo Woorishoff Memorial Fellowships for \$810 in social economy and social research.

Two Grace H. Dodge Memorial Fellowships for \$810 each in Industrial Relations.

Intercollegiate Community Service Association and Bryn Mawr College Joint Fellowship for \$800 in Community Service. (Continued on page four.)

Agrarianism In
The West Will
Be Discussed

The meeting of the Economics Club which was postponed last Thursday, will be held tomorrow, Feb. 23, at 8.15 sharp, in the smoking room of the Arts Building. The meeting is being held on Wednesday to enable all Political Economists to attend the hockey game on Thursday.

The topic of the discussion will be "Agrarianism in Western Canada." John Culliton B.A., a graduate of Saskatchewan, and now taking a post-graduate course in McGill's Department of Economics, and R. G. M. Gammell of Arts '27, will deliver the papers.

There has been much discussion in the press of the Western Wheat Pool, of the "Campbell Grain Bill," of the Hudson Bay Railway, and so forth. These as well as other western Canadian topics will be fully discussed on Wednesday. The past and the future of the Progressive Party and the U.F.A. will also be dealt with. Refreshments will be served.

DISCREDIT THEORY
OF ASSIMILATIONL. Edel and A. M. Klein
Speak at Study Group

"The Jew has come from the flames of Russia to the Melting Pot of America," stated A. M. Klein in the course of a paper on Assimilation delivered at the Macabean Study Group on Sunday evening. The problem of assimilation both in theory and in practice was discussed at the meeting by Leo Edel, Arts '27 and A. M. Klein, a freshman in Arts.

The first speaker, Edel dwelt for some time on the sociological question of imitation and how this was related to assimilation. He pointed out that since earliest times it was the superior person who led while all the rest who lacked this initiative and daring slavishly imitated. Races and peoples who come in contact with other cultures assimilate if they find that of their neighbors superior to their own. The Jews have preserved throughout the ages because they have been able to maintain their traditions and spirituality.

He treated also of the question of anti-semitism and how this outer force acted as a powerful factor in the preservation of the Jewish people. He quoted from Maurice Fishberg's book on the Jews to show the anthropological connection with assimilation.

Klein followed with a spirited attack on the theory of assimilation on as a solution to the Jewish problem. The assimilationist solves the Jewish problem by denying it, he claimed. For him there is no Jewish problem because he sees no need for Jewish nationality. The Jews have a definite culture he declared and to prove it named some of the great literary works of the Jews from Jehuda Halevi the great Jewish poet of the eleventh century to the work of Peretz in modern times.

He dealt at some length with the contributions of the Jews to the world as non-Jews naming in addition to the well-known names of Disraeli, Spinoza, Heine, Sarah Bernhardt and others who were of Jewish descent such as Montaigne, Bret Harte, Sir Arthur Sullivan, Charles Kingsley, Walter Pater, Matthew Arnold, Jean Bodin, and George Brandes. In modern literature especially European there are many Jews making important contributions such as Arthur Schnitzler Wasserman, Hauptmann, Thomas Mann, Franz Molnar, Franz Werfel. APPLICATIONS
MUST BE IN
BY APRIL 1STDean Makes Announcement Regarding
Moyse Travelling Scholarship

FOR ONE YEAR

Of Value of Fifteen Hundred
Dollars Each—Study in
Europe

An announcement of the conditions under which the Moyse Travelling Scholarships are given has just been received from the office of Dean McKay, of the Faculty of Arts.

Applications for these scholarships should be made in writing to the Dean of the Faculty of Arts on or before April 1st, 1927. No rigid form of application is necessary. Candidates, however, should address an informal application to the Dean stating where they presently intend to study, what subjects of study they propose to follow and as near as they can with what object or ambition to follow, and as near as they can with what object or ambition in mind. Two references to well-known citizens not in the University may also be named. The condition of these scholarships are as follows:—

"These two scholarships shall be tenable for one year and shall be of the value of Fifteen Hundred Dollars each.

"Each holder shall devote the period of his tenure of the scholarships to advanced studies preferably at British or other European universities, but not otherwise to the exclusion of other institutions which have the approval of the Faculty of Arts in McGill University and the nature of the studies to be followed and the place at which they are to be prosecuted are to be stated in the application for the scholarship.

"These scholarships shall be awarded to graduates of the Faculty of Arts in McGill University subject to the provisions hereinafter contained.

"One of such two annual Moyse Travelling Scholarships shall be awarded for distinction in what may be termed Literary Subjects, and the other for distinction in what may be termed Subjects in Pure and Applied Science, it being understood however that if a deserving applicant in one of the above divisions is not forthcoming, both scholarships may be (Continued on page four.)

M.S.P.E. WIN GAME
AGAINST M.A.A.A.Game Won by a Close 2-1
Score in Last Stanza

At the M.A.A.A. rink on Monday night at 7 p.m. the M.S.P.E. team played their second game of the season in the city league. Though the play was ragged at times it was generally fast, the shooting of the M.A.A.A. team was very spectacular but the McGill defence and goal were steady, and the entire team held their positions well. M.S.P.E. opened the scoring towards the end of the first period with a fast high shot by Miss Thompson, from outside the defence.

The M.A.A.A. put in a pretty goal at the beginning of the last period but a few seconds later the winning shot was scored by the McGill centre, on a pass from Miss K. Peters on left wing. The line-up was as follows:

Goal, B. MacDonald; Defence, M. Schnebly, H. Drummond, I. Courcier; Centre, B. Thompson; Wings, M. Peters, K. Peters, D. Marshall.

The team went direct from the M.A.A.A. rink to the Forum to support the Senior Team who so ably supported them on Saturday afternoon at the Intercollegiate game with Queen's.

WOMEN'S GYM TO
COST \$235,000

University of Washington, Seattle, Feb. 21—Work on the new \$235,000 women's gymnasium has been started and the building will be ready to occupy by next fall. Two floors, one 120 by 90 feet, and the other 40 by 65 feet, will be included in the new structure as well as locker, shower, and dressing accommodations for 3,500 women. The larger floor will take care of basketball, volley ball, and indoor sports, and will be used for the annual high school Sports Day meet. The smaller floor is to be used solely for dancing classes, and will have a specially designed covering of cork-linoleum.

TORONTO GYM TEAM WIN CARON TROPHY

Defeat McGill by Small Margin on Saturday

MIX STARRED

Toronto Gymnast Wins Individual Honors With Three Wins: Caron Second

For the second year in succession the Toronto Gym aggregation has captured the intercollegiate title by a very close margin from their closest rivals, the Red and White. At the intercollegiate Gym Competition held at Toronto last Saturday, the McGill entry, though they put up a very significant showing, were outpointed by a slightly better Toronto team, to lose their hopes for a regained championship, and incidentally to lose the Caron Cup the very first time it was being competed for.

The number of points allotted to each team, Toronto 2559 and McGill 2511, shows the closeness of the decision. The final result was in doubt until the last movement had been completed.

Mix, of Toronto, was the individual high scorer at the meet, with Caron, of McGill, and deWolfe MacKay running him a close second and third. Picard, Ross and Burk also figured in the McGill scoring, and the spare, Eric Jacobson, though he was not used showed up very well in the exhibition which he gave.

MacKay had some tough breaks in the Horse event, when he failed to register against M. x, and lost out by one solitary point. On the Mats, MacKay also held his own, coming in second in the race for points.

At a meeting of the C.I.G.U. which was held before the meet, and which was presided over by Ray Caron in the absence of Consiglio, the president, the following officers were elected for the forthcoming year:

- Hon. Pres.—Dr. J. R. Delaney.
- Pres.—Lymburner (Toronto).
- Secy.—The McGill manager to be appointed.
- Executive—deWolfe MacKay (McGill), John Williamson (Toronto).
- The following is the complete list of results:
- Total Points—Toronto 2557; McGill 2511.
- Individual Points:
- 1st—Mix, Toronto.
- 2nd—Caron, McGill.
- 3rd—MacKay, McGill.
- 4th—Williamson, Toronto.
- 5th—Gunn, Toronto.
- 6th—Picard, McGill.
- 7th—Ross, McGill.
- 8th—Lymburner, Toronto.
- 9th—Hyslop, Toronto.
- 10th—Burk, McGill.

The results for each event were as follows:

Parallels—Mix, First.

Horse—Mix 1st, MacKay 2nd. (Lost by one point.)

Mats—Williamson 1st, MacKay 2nd.

High Bar—Mix and Caron tied for first place.

CAGE AND ICE SPORTS OF MAJOR IMPORTANCE

Dartmouth Favours Elevating The Popular Minor Games

The question as to what sports shall be designated as major and minor is troubling the students at Dartmouth. Basketball and hockey are at present minor sports at the Hanover institution, but the consensus of student opinion is that the members of the senior teams in those sports should get big "D's".

The following editorial, taken from the "Dartmouth" is entitled "Major Sports."

The recent outstanding performances of Dartmouth teams in the leading sports of the winter, namely basketball and hockey, again emphasize the regrettable fact that tardy recognition, athletic lag, or whatever you want to call it, has deprived these two extremely popular sports from being designated as major ones.

At present the only difference between a major sport and a minor sport is that of the official award. Being a major would not necessarily mean that a sport would have any more coaches, any larger schedules or any different training rules than it would as a minor. Making a sport a major is merely to recognize its relative place in the athletics of the college.

The recognition of the College by the award of certain letters has not been altered for a number of years. The older sports have been recognized by straight "D's" and probably have ever since they were acknowledged at all. The newer sports, basketball and hockey among them, have been given "D's" since their inauguration, for they had to prove themselves worthy of major sport letters. But now they have done so it is time that a change be made.

Anyone attending the Princeton-Dartmouth basketball game last Saturday night could not fail to see that basketball is popular with the under-

B. W. & F. Notes

The stage is now set for the intercollegiate Assault at Arms to be held here next Friday and Saturday in the Union. The tickets were put on sale today and a record crowd should fill the ballroom to the rafters. It is four years since McGill won a B. W. and F. title but from present indications the red and white should be the ones to beat this year, especially as they are fighting on their own ground.

The wrestlers held a strenuous work-out yesterday at their lair in Strathcona Hall. Nearly all the team were on hand and they were given a lot of practical help by some former members of the red team who turned out loyally to coach McGill's present hopes. The entire squad seemed in the pink of condition.

On Saturday the more ardent members among the leather-pushers strutted their stuff in the boxing room at the M. A. A. A. Coach Light boxed no less than ten rounds with different men, and too much stress cannot be laid on the splendid work done by the coach in training the squad. McGill is indeed fortunate to have the services of two such experienced mentors as Coaches Smith and Light.

No member of the team has made more improvement in the last week than Ney Gordon. Since he settled down to training McGill star flying wing has shed six pounds of superfluous flesh and his style has improved considerably. He turned in an impressive performance on Saturday against Bert Light and Don Carrick's rival Fred Taylor. Incidentally there has been a lot of misunderstanding in the local press regarding the relationship of the two Taylors—Fred and Bert. Despite all reports to the contrary they are no relation to one another.

The latest development among the midgets is that Solly Schleifer has trained down to the 112 pound limit. It was originally intended that Bloom was to fight at this weight leaving Solly for the bantam division. Now that the latter can make the fly-weight class the Coach is casting around for a suitable entrant for the heavier weight. If Cecil Brain could be persuaded to enter in this Division McGill could rest assured as to the outcome. With his speed and wonderful defensive ability Brain is a threat in any Tournament and is to be hoped that he will step into the ring on Friday.

Several of the red and white midgets were invited to take part in a smoker put on by the Kiwanis last Friday night. In this all concerned showed marked improvement and the audience were loud in their praise of the entertainment. Among the participants were: Bloom Schleifer, Baldwin, Musselman and Bert Taylor.

SENIOR HOCKEY

Practise at the Forum today from 5 to 7.

graduate. In fact we believe Basketball is the second most popular sport in College.

Considering the unfavorable conditions to which the crowd is exposed, the hockey team attracts a large number of spectators to its games. Although in Hanover the temperature is generally below the freezing point, the stands are full for a good contest. Hockey is popular enough in Harvard, Princeton and Yale to warrant its being recognized as a major sport.

As far as campus opinion goes basketball and hockey have been and will continue to be major sports. However to the outside world, and especially the prospective Dartmouth students, official rating is accepted. We believe that these two ratings should be made to coincide, first, out of fairness to participants and second because such recognition may attract better men in these lines to come to Dartmouth.

The present rules of the Athletics Council already partially recognize the changing attitude toward basketball and hockey for it provided that both teams may win straight D's under certain conditions. But those conditions are not in harmony with the purpose and spirit of Dartmouth athletics for the straight D award is made on a basis, not of endeavor, but of a winning team.

The Council itself showed the impracticability of this sort of requirement only last season. The hockey team did not win all of its college games. But it was finally voted straight D's. The basketball team fulfilled the requirement then demanded of being second in the league and it was denied its recognition because other teams before it had been better and had not received them, hence last year's team "did not merit" them. The Council then raised this requirement to "first in the league."

Such reasoning does not seem in harmony with the Dartmouth policy. The Dartmouth believes that sports should be rewarded as sports, and not as teams. Hockey and basketball have both enjoyed successful seasons during the last few years. They have both increased in favor and interest. Both compete against teams whose members receive major insignia. Both are of major importance financially.

Baseball and track and football are the oldest sports. Football has eclipsed

BASKETBALL TEAM PRACTISING HARD

Crucial Test Against Western and Varsity This Week

The senior basketball team entered the last lap of their long grind yesterday at the Montreal High School gymnasium where they went through the second to last practice of the 1926-27 season. All the lads were on hand and seemed to be in fine shape after the hard tussle against Queen's Saturday. Benny Sacks, it is true, still has a slightly sore neck but this does not interfere a bit with his playing and what is more he is expected to be in fit shape again before the end of the week. Wednesday's workout will be the last of the year.

With the basketball season rapidly drawing to a close the names of those who will play their last games for Old McGill at the end of the week are coming more and more to the fore. Captain Errol Amaron will wind up his eight years' career at McGill this spring, and along with Benny Sacks who will don his red and white sweater for the last time at Toronto on Saturday night, will emerge into that vast space known as the cold, cold world.

Fortunately for the red team these two are the only members of the squad who will not be in the familiar positions when next November comes around but even so Coach Van Wagner will have a hard time finding worthy successors to the departing players. It will be difficult to discover another guard of Amaron's calibre and it looks as if for some years to come the red and white will not be known for its strong defensive playing as has been the case since the war. Another puzzler for the coach to rack his brains over during the vacation will be the task of finding an unselfish, gritty and stellar forward as Benny Sacks, the Philadelphia Flash, who has made such a name for himself this year.

After their brilliant victory over Queen's on Saturday the red and white quintette are conceded an excellent chance of downing both Western and Varsity this week-end and annexing their first title in three years. The team leaves the C.N.R. Bonaventure Station at 11 o'clock Thursday evening for Toronto and London but despite this fact the entire squad is attending the Universite of Montreal-McGill hockey game in a body, and at the conclusion of the fracas will rush from the arena direct to the train.

It is not yet known which of the intermediate players will make the trip to the Ontario cities as the ninth man on the McGill squad but a decision will probably be reached at Wednesday's practice.

Due to the great interest evinced by the undergraduates in the outcome of the week-end games the Daily has decided to issue a running story on each evening's contest. Besides bulletining it, the story of the game period by period will be read out in the Union ballroom during the intermission in the intercollegiate boxing, wrestling and fencing programme.

R.V.C. JUNIORS AND SOPHS TIE

Score 1 to 1 in Snowbound Hockey Game

R.V.C. '28 and '29 yesterday afternoon played a very slow game on the Hollow rink. The teams were greatly hampered by snow, as it was impossible to keep the ice cleared.

In the first period Gertrude Sharpe scored a goal for second year but '28 evened the score in the second period. There was no further scoring.

The play went back and forth but was very ragged and was generally toward the third year goal.

The line-up was as follows:

R.V.C. '28		R.V.C. '29	
Goal		Goal	
A. Fogg	...	E. Todd	...
Defence		Defence	
I. Millar	...	H. Alexander	...
H. Gilman	...	G. Davidson	...
Centre		Centre	
A. Moffat	...	G. Sharpe	...
Wings		Wings	
K. Morrison	...	A. Adams	...
O. Scobell	...	A. Fanjoy	...
Sub		Sub	
E. Wardleworth	...	D. Payne	...

the other two. And now as interest lags in track and baseball we find basketball and hockey steadily climbing in favor. The interest in athletics has been broadening and changing. It is high time that certain sports which have been favored with this shift of interest be awarded.

Quick work on the part of the C.P.R. investigation department and the honesty of a Red Cap recovered an American \$500 bill for its loser, B. S. Nauer, public accountant of New York, recently. Mr. Nauer pulled it out of his pocket in getting some small change and it fell to the floor of the concourse of the Montreal C.P.R. station. The Red Cap picked it up and handed it to the station master. When Mr. Nauer made enquiries, a few minutes later, it was handed to him. He gave the Red Cap the handsome tip of \$100.

MCGILL HEAVYWEIGHT

Fred Taylor, who will meet Don Carrick of Varsity for the intercollegiate title here this week-end.

JUNIORS DEFEATED BY MONTREAL 6-0

M.A.A.A. Proves to be Faster Aggregation

McGill Juniors were nosed out of the Q.A.H.A. race last night by M.A.A.A. the red squad suffered defeat by the score of 6-0. The Montreal team proved themselves to be much more aggressive and experienced and entirely outskated the McGill squad. Quite a fair crowd remained after the senior contest to witness the match.

In the first period both teams skated out and played hard but carefully. Ewing got through and placed his team in the lead when he fooled Budge after a few minutes of play. Teller, the speedy Montreal defense man worked his way through a few minutes later but missed his shot. M.A.A.A. pressed the play but Budge in the McGill nets stopped anything and everything. McKeown broke through but missed his shot.

Calder opened the penalty list when he was chased for tripping at the beginning of the second period. Haynes, Montreal's star centre took the puck and put his team still further ahead when he slapped a rebound into the McGill nets. Allan was penalized for body-checking. Robertson rocked White on a hard shot from the wing. McGill rallied but was unable to score. McKeown received a penalty for cross-checking. A mix-up in front of Budge

failed to result in any score for the Montreal team. Haynes got through and made the score 3-0 for his team, he was followed a few seconds later by another from Teller's stick. Budge fell and saved a Montreal shot but Carter pushed the puck into the nets. M.A.A.A. kept boring in for the remainder of the period but were unable to score owing to the excellent work of Budge.

Halpenny was penalized for body-checking. Mullins rushed through McGill's defence to make the score 6-0 for Montreal. Teller and Mullins were penalized for slashing. McGill tried to rally in the last few minutes but were unable to get the puck past White.

This defeat eliminates McGill from the Q.A.H.A. but it is possible that the team may be seen in some exhibition games.

Line-up:

M.A.A.A. (6)		McGill (0)	
Goal		Goal	
White	...	Budge	...
Defence		Defence	
Teller	...	Calder	...
Carter	...	Guthrie	...
Centre		Centre	
Allan	...	McKeown	...
Wings		Wings	
Walte	...	Robertson	...
Ewing	...	Halpenny	...
Subs		Subs	
Haynes	...	Craymer	...
Trudel	...	Ireland	...
Mullins	...	Adams	...
Referee: "Sig" Slater.		Goal Umpires: A. Rogers, C. Robins.	

WOMEN'S INTERCOLLEGIATE BASKETBALL

Matches Will be Contested in Kingston

The women's intercollegiate basketball meet is scheduled to take place on February 24-26.

On Thursday evening McGill will play against Varsity and Western and Queen's will play an exhibition game. Friday night McGill will play against Queen's and Western and Varsity will play an exhibition game. Saturday afternoon Varsity will play against Queen's and Western and McGill an exhibition game.

Last year the games took place at McGill and R.V.C. won the trophy. They will have to work hard in order to keep it as the other two universities have been working steadily all year and are said to have excellent teams.

Western University is not in the women's intercollegiate league, but they are going to play exhibition matches with the other three universities.

No Reserved Seats Saturday Aft.

To insure student accommodation, only 150 seats will be sold to public.

R.V.C. MUSIC CLUB TO HEAR DR. PERRIN

Beethoven Program Will Feature Meeting on Thursday

Dr. Perrin, dean of the faculty of music, will be the speaker of the afternoon at a meeting of the R.V.C. Music Club on Thursday, Feb. 24th. His subject will be Beethoven especially appropriate on a date so near the centenary of the great composer's death, which occurred in March 1827.

All music lovers should be overjoyed at the opportunity of hearing such an eminent authority on this subject, and a very cordial invitation is extended to all women students.

Besides Dr. Perrin's lecture there will be a musical program. Miss Kathleen Perrin accompanied by Dr. Perrin will play Sonata No. 2 on the violin; Miss Frances Goltman, a promising pianist at the University will play the first movement of the Sonata Parthénien. Miss Minerva Porter will conclude the programme with Ecce Homo.

All members of the Music Club are urged to be as punctual as possible out of courtesy to those taking part, and also for their own enjoyment as the whole program is of outstanding merit.

Tea will be served.

BRYN MAWR OFFERS MANY OPPORTUNITIES

(Continued from page one)

nity Work. Candidates for this must have studied at Bryn Mawr for at least one year.

Candidates for the Scholarships must be graduates of some College or University of good standing, but need not have done graduate work. Holders of Scholarships are allowed to take a small amount of teaching or other paid work. Following is the list:

Twenty Graduate Scholarships for \$350 each in any subject in which a Fellowship is offered.

Susan B. Anthony Research Scholarship for \$550 in social economy and social research and politics.

Robert G. Valentine Scholarship for \$350 in social economy and social research.

Several Grace H. Dodge Memorial Scholarships for \$350 each in industrial relations.

Music Fund Scholarship for \$350 - \$500 in music.

Eight Scholarships for Foreign Women for \$720 each in any subject in which a Fellowship is offered.

Applications must be received by April first, 1927. For further information and application blanks address Office of the President, Bryn Mawr College, Bryn Mawr, Pennsylvania.

DISCREDIT THEORY OF ASSIMILATION

(Continued from page one)

Bramwell Booth, the founder of the Salvation Army was of Jewish descent. Throughout his speech Klein emphasized the justice of the Jew's claim to a culture of his own. He ridiculed the Jew who is trying to lose his identity in that of some other people's. "The Jew has stuck his nose everywhere but has lost it nowhere," he summed it up.

The meeting was held at the home of Bernard Cohen. The next meeting is two weeks from last Sunday night, and the question of Nationalism as a solution to the Jewish problem will be discussed. Two papers will again be read this time by Joseph Rubinstein and Joseph S. A. Miller, both students of medicine.

WAR COSTS MORE THAN EDUCATION

(Continued from page one)

will be utilized for the machines of destruction.

War begets war. The obligations of peace treaties are not moral obligations. The Crimean War gave ample fuel for future wars in Europe. No nation can really afford to have war. In Europe there are nations that are bankrupt beyond recall but that does not mean that they will not enter war and it does not present any guarantee of peace. After the talk the Forum was open for questions and a very searching enquiry was made into those points which were of vital interest.

VISITORS BOOK OF R. V. C.

(Continued from page two)

Lady Glan Mountstephen, widow of Lord Mountstephen one of the few Canadian financiers to receive a peerage of Great Britain, and La Princesse Santa Margherita.

Other women's signatures are those of the first five women who obtained their M.D. at McGill.

A notable date is that of May 12, 1900 on which the signatures of

Arthur and Lady Currie were added to the book, although we did not then know that it was a future Principal of McGill who had received an honorary degree.

On October 31, 1919, H.R.H. the Prince of Wales visited the College, an event which delighted the students of that time and which still can be appreciated by those who follow. Many treasure the memory of the characteristic charm with which he acknowledged the greeting of a crowd especially assembled on the stairs, inspired by Miss Hurlbatt and chaperoned by Miss Liechtenstein.

Red And White Revue Notes

This column is published for a purpose; every member of the Revue cast must take careful note of all the announcements appearing herein; be regular and punctual in attendance.

TODAY

Group 1 will rehearse in the Ballroom of the Union at five o'clock sharp. As the band has this room at five-thirty, you are expected to be on time.

Rhodes, and Mackenzie, Gammell and Archibald will appear at five-thirty to undergo treatment for their act.

WEDNESDAY

There's a certain group in the Red and White Revue of 1927 that either cannot read, or will not read these notes. The following are hereby warned that five o'clock tomorrow on Moyse theatre stage is their next rehearsal date, hour and place: Miss Campbell, NAIRN, GAMMELL, LaFleur, Eberts, Webster, Giulianelli, and Munro. The hour, it might be repeated, is FIVE o'clock.

Group 3 will rehearse at five-thirty same place.

THURSDAY

Robert B. Bell and Roger McMahon are expected on the stage of Moyse theatre at five-thirty (half past five) with the act prepared, memorized and ready for rehearsal.

At five o'clock Rhodes, Webster, MacKenzie, Gammell, Archibald will rehearse.

Both Choruses 1 and 2 will practice in the gym of R.V.C. at five o'clock. This is an important rehearsal, so be sure to be present.

GENERAL REHEARSALS

Every member of the Revue personnel is requested to make plans to attend the following rehearsals without fail:

Saturday, February 26, at two o'clock in Moyse theatre.

Thursday, March 3, at eight-thirty, Moyse theatre.

Saturday, March 5, at two, Moyse theatre.

NOTE

All men as yet unmeasured for costumes will see Gordon Davidson regarding same immediately.

C.O.T.C. Orders

For the week ending February 26th 1927.

ORDERLY OFFICERS

Orderly Officer—Lieut. Andrews.

Next for Duty—Lieut. Vokes.

PARDONS

The regular parade for Wednesday February 23rd is cancelled.

LECTURES

All Branches

Room 33, Engineering Building.

Mon. Feb. 21st, 5.00 p.m. Hygiene of the March and Camp.—Col R. St. J. Macdonald.

Medicals

Room 64, Arts Building, Tues. Feb. 22nd, 5.00 p.m. Gas Protection and Gas Hygiene.—Major R. M. Gossline, D.S.O.

Cavalry

Room 33, Engineering Building, Tues. Feb. 22nd, 5.00 p.m.—Organization and Administration of a Squadron and Regt.—Lieut. W. G. D. Chadwick R.C.D.

AIR FORCE TRAINING

There will be two vacancies from this district for summer training of C.O.T.C. candidates. Applications for permission to attend this course should be forwarded to the C.O.T.C. by March 12th.

J. W. JEAKINS,

Major,

C.O.C. McGill C.O.T.C.

Correspondence

The sentiments expressed in letters published by this column are those of the writers not necessarily of the editors. Signed communications from anyone interested in the welfare of McGill University will be printed. Anonymity will be preserved when requested, but the writer's name and address must be attached as a mark of good faith.

Correspondents will please write legibly and use one side of the paper only. If you would be pungent, be brief.

* * *

The Editor,

McGill Daily,

Dear Sir,—In reply to the creature with the Latin-Iroquois name, we are compelled to raise vehement protests against the adulteration of our Daily by the putrid foment of the mind of a moral leper.

Today as never before, our civilization is imperilled by the inevitable consequence of promiscuous petting, nefarious necking, and meretricious mushing on "chesterfields, before fire-places, in cosy rooms," and other locations of vantage. One of the greatest benefactors of the human race, paralleled only by Jane Austin, Louisa Alcott, and Margaret Currie, has been the ever present little brother who, with heaven born intuition, has refused to desert his post—to the no small discomfiture of the gay young swain.

Contrast for a moment the young woman of the nineties, with her buxom

figure, modest attire, meek demeanour, and cheeks like a full-blown rose, with the young woman of today, making a chimney of her lungs, a sign board of her face, and a reflux condenser of her trachea. God, what a change!

But what an imbecile we deal with! To approve of obnoxious osculations, impelling the human race towards contagion, disease and an early grave. And to degrade the noble Science of Chemistry by embroiling it in a discussion of the vulgar and degenerating business of cosmetics! O shades of Paracelsus and Lavoisier!

We, as pseudo-scientists, wish to venture the humble opinion that the business of cosmetics is a horrible prostitution of chemistry. The iron that formerly constituted the backbone of corsets now appears as rouge. The pyridine that should be making the country safe for prohibition by denaturing alcohol is being wasted in the concoction of seductive aromas to entice the unwary male. The silicates which should form the basis of great structural works are indiscriminately applied to the physiognomy of the thoughtless female. And so on ad nauseam.

We firmly believe in the androcentric theory of life.

(Signed)

NATURAL SCIENCE MEETS WEDNESDAY

(Continued from page one)

quantum with, so eminent an authority. For the experiments alone a table six feet long is required, so one is amply assured of an illuminating and inspiring afternoon.

The success which this club has enjoyed this year is due to many causes, the greatest of which is the helpful advice and cheerful encouragement given so willingly by Dr. A. V. Douglas. The future of the Natural Science Club rests entirely with the women students at McGill, and their appreciation can be shown by attendance at this Wednesday's meeting. Members of the staff are especially welcome.

APPLICATIONS MUST BE IN BY APRIL 1ST

(Continued from page one)

awarded to applicants who belong to the other.

"Deserving applicants who intend to devote or who shall have devoted themselves to academic work either as instructors or as chiefly or wholly engaged in research shall when possible be preferred to others the term 'academic' may be held to include 'scholastic' insofar as the words of the present paragraph apply.

"Applications in writing from graduates or final year students must be made to the Dean of the Faculty of Arts on or before the first day of April of the year in which the scholarship commences.

"The awards shall be made by the Faculty of Arts after the result of the final examinations has been determined in the case of applicants in the graduating year. Should the Faculty of Arts not consider the applicants from that Faculty to be of sufficient merit to receive both or either of the scholarships, the Faculty of Arts may consider applicants from final year students or graduates of other Faculties and if thought fit make award accordingly.

"The awards shall be announced at the Spring Convocation in the Faculty of Arts."

MANY C.O.T.C. CADETS PASS IN PRACTICAL

(Continued from page one)

versity Band will attend the inspection and supply the music for the general salute and the march past. It is stated that the commanding officer will tender Bandmaster Casey a formal invitation in the near future to attend the function. If the band decide to attend it will be a great innovation and will fill a great want on the inspection.

Owing to the lateness of the season it will be impossible for the corps to have another week-end trip this year. However, the commanding officer has announced that the annual dinner of the McGill corps will be held on the evening of March 23rd, very probably in the Mount Royal Hotel. As yet the special speaker of the evening has not been announced.

ARTS 27

All members of the class are asked to make their own appointments to Notman's for the graduation picture within the next three weeks. Price \$2.

Figures submitted at the annual convention of the Nova Scotia Dairy-men's Association showed 27 creameries operating in the province in 1926, producing 4,746,000 pounds of butter, or an increase of 512 per cent. over the production of 1925. The increase in value was \$423,816.

McGILL DAILY is printed by the Herald Publishing Company Limited for the Students' Executive Council of McGill University, of which Gilbert H. Fletcher is the Secretary-treasurer. At the office, 323 blue-brook St. West.

Notices

FINAL YEAR MEDICINE

The following members of Med. '27 will arrange to have their individual photographs taken at the Rice Studio St. Catherine St. this week. Appointments can be made by telephone—Miss Bernat, Miss Christie, Miss Galley, Miss Haldeman, Miss MacLennan, Miss Trapp, Adams, Addleman, Allan, F. R. Ball, J. C. Ball, Barton, Baxton, Baxter, Brown, Duell.

NATURAL SCIENCE CLUB

Dr. A. S. Eve will address the next meeting of the Natural Science Club to be held Wednesday February 23 at 4 p.m. in the R.V.C. All women students are invited to attend. Tea will be served.

EXTENSION LECTURES

Prof. H. E. Reilly will review the principles underlying the technique of X-ray production on Feb. 23rd at 8.30 p.m. in Room 102 of the Physics Building. This is the 2nd of a series of lectures.

SOCIOLOGICAL SOCIETY

The Society will meet: To-Night. PLACE: Arts Building. TIME: 8.15 p.m. SPEAKER: Miss Winnifred Kidd. TOPIC: "Public Opinion". Refreshments will be served at the close of the discussion.

PHILOSOPHICAL SOCIETY

There will be a meeting of the Philosophical Society on Monday the 25th of February at 8.15 p.m. in the Reading Room of the Arts Building. J. A. Taylor will speak on "A Theory of Naturalism". All interested are invited to attend.

ARTS '29

Any member of Arts '29 who wishes to see the proof of the class picture may do so now. A copy is in Bill Gentlemen's office. Please do not take this proof away. If you want to get a copy of it, please give your name to Urquhart as soon as possible. The price is \$.50 unmounted and \$.75 mounted.

Upper Class Basketball Schedule

Tuesday, Feb. 22, Girls' Gym 6.15—Med. III vs. Sci. IV.

Boys' Gym

6.45—Sci. III vs. Comm. III.

The team of Med. IV have been disqualified for playing an ineligible man, and Med III have won from them by default.

SNOWSHOEING

Practice on Tuesday and Thursday at five o'clock. Saturday at two-thirty, starting from the Arts Building.

CHEMISTRY COLLOQUIUM

At the colloquium, which is scheduled to be held on Wednesday afternoon 23rd February, at five o'clock in the Chemistry Building, Mr. W. F. Gillespie will introduce for discussion the subject of "The Mechanism of Cannizzaro's Reaction".

A cordial invitation is extended to those who desire to attend.

PLAYERS CLUB REHEARSAL

Tuesday at 7.30 p.m.

Act III Sc. I and II in Strathcona Hall.

Thursday at 5.00 p.m.

Act II Sc. II in Union.

Thursday at 7.30.

Act I in Strathcona Hall.

BOXERS

Full turn out of all boxers is called today by Coach Light in order to receive some final instructions for the Assault.

WRESTLERS

Wrestling practice will be held this afternoon at 6.15 p.m. in Strathcona Hall. There will also be a light practice to-morrow and Thursday. All wrestlers are asked to be present.
